

It is a crying shame, when I as a consumer who pays the bill for the use of my telephone, can be harassed by companies that don't contribute 1 cent towards it's payment. I beg of you, please don't bow to the attempt of this group to take my peace and quiet, along with my sanity away. We, the consumers of Wisconsin are perfectly happy and content of the way our state law is written. I believe this to be a state's rights issue. Thank you for your time and please do the correct thing and tell this group that they have no legal complaint. Thank you.
